

## **Seventh Directed Exercise**

Due: Friday, April 1<sup>st</sup> by 5pm

- Your seventh directed exercise is due by 5pm on **Friday, April 1<sup>st</sup>**
- Your assignment should be submitted to our Classes V\*2 site under “Assignments” as an attached document.
- As you know from the syllabus, because this is a large lecture class, it is important to have explicit and uniform policies. Among those policies is the following:
  - Directed exercises will be marked down 1 point for each 24 hours that they are late (rounded up to the nearest 24 hours).

### Exercise:

Give an example of a coordination problem that shares the structure of the Prisoner’s Dilemma. Explain how the problem can be “addressed” by using one or more of the mechanisms for inducing cooperation that Shepsle and Bonchek discuss on pages 211-218 – or some other mechanism that you identify.

Your essay may be very short: 1-3 paragraphs (200-300 words) is plenty.

Your exercise will be worth up to 2 points.
